

For the family new to boating, or perhaps buying their first bow rider, the Resort 5 is a wonderfully compact boat. It performs exceptionally with the smaller V-6 outboards and due to its compact nature, this boat offers easy family boating.

It's easy to tow, easy to store, easy to launch and easy to go boating. Yet even though this is the baby of the Resort range, the Resort 5 lacks nothing in features or equipment.

Inside the cockpit you will find the same quality seating, carpet and fit out as the larger model Resorts. When it comes to quality, there are no compromises at CruiseCraft.

And when it comes to enjoying your time on the water with a boat load of friends and family, you can still do it all with the Resort 5...ski, fish, picnic or just cruise the waterways seeing new sights and enjoying your family time together.

This can be your very own resort that you take with you. Why wait a moment longer?
