

Introducing the **REEF FINDER 533**

CRUISE CRAFT

'At last — a boat specifically for fishing — a total fishing boat — roomy, practical and above all seaworthy.'

— Graham Earle
Power Boating Writer
The Courier Mail,
Brisbane. 13-3-87

A Nichols Bros. Boat. Craftsmanship since 1946.

THE REEF FINDER 533 boasts a huge 2.64 metres long by 1.95 metres wide cockpit with built-in, self-draining bait tanks located at the stern. The wide decks lend themselves to a variety of rod/winch configurations.

The cockpit is free of any obstructions — on the REEF FINDER 533 the only thing that's going to get hooked are the fish.

Sensibly located under the outboard well, in the shade, is a large easily cleaned fish box.

For those who like to fish outer reefs there is long range fuel capacity with provision for two 25 gallon (113 litre) under floor tanks.

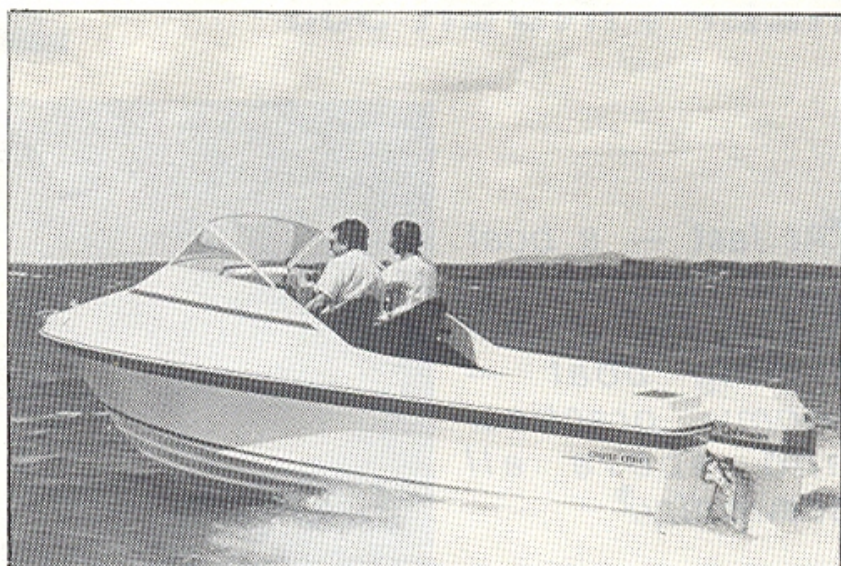

Based on the time-proven 533 hull series, the REEF FINDER is the result of consultation with those that know what they require in their boat.

Contact your local Cruise Craft agent to inspect what really is the best thing that's happened to fishing since the Esky.
