

Cruise ★ Craft

Reef Raider 166

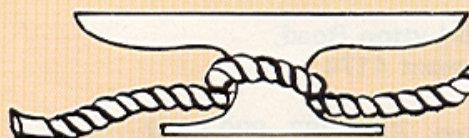

Cruise Craft clinker sided fibreglass power boats have been built for over 30 years by a group of professional boatbuilders who are also boating enthusiasts. Over the years, Cruise Craft designs have been continually modified to keep abreast of the latest technical developments and to cater for the changing needs of boatowners throughout Australia.

Our designs are of a high-sided and 'beamy' hull configuration in order to give our craft excellent stability and safety. Many prospective boatowners are family men who require these features and for them, Cruise Craft are ideally suited. In our models we have also remembered the needs of skiing enthusiasts and offshore fishermen whose requirements are speed and manoeuvrability.

Little need be said about Cruise Craft constructional quality and durability, these are well known by boatowners countrywide. We welcome the opportunity of letting you see this outstanding range of boats at your nearest Cruise Craft distributor.

The fisherman's dream special with a host of sensible features to appeal to the real enthusiast. Divers and rod men will love this rugged, spacious craft with its soft ride and practical layout.
