

The Cruise Craft Reef Raider 166.

This Cruise Craft is likely to be around for a very long time. The Reef Raider 166 is the most popular fishing boat we have ever produced.

The modified V hull guarantees top performance in a rough chop or a rolling sea yet the Reef Raider is also unusually "beamy" for a 16'6" boat. That means extra stability both at anchor and trolling.

The Reef Raider packs more features into 16'6" than just about any other boat on the market.

There's underfloor storage for fuel or ground tackle, full length side pockets, under foredeck shelving and storage, separate anchor

compartments, heavy duty deck hardware, anti glare windscreen, reversible helmsman and passenger bucket seats and a large motor well for single or dual installations.

The long list of features that make the Reef Raider the perfect all rounder for fishermen also make it a practical all rounder for diving, skiing and family boating.

A Nichols Bros. Boat. Craftsmanship since 1946.

Specifications of The Cruise Craft Reef Raider 166

Centreline Length _____ 5.03m 16'6"
