Fire Extinguisher 1kg	Transom U Bolts
Foam filled hull	Walk Through Transom Door
Forward Access Hatch	Windscreen Rail

Our all new Explorer 595 establishes a new bench mark for family fishing and cruising. The famed Cruise Craft Explorer range now boasts an All New model which is conveniently positioned between the established 575 and 625 models.

With this new release, the Cruise Craft design team has crafted a fresh new generation of hull design from the keel up. Whilst the proven hull geometry continues, the Explorer 595 has a host of new features included.

A New Sleek Deck has been tooled which incorporates a Recessed ToeRail for safe access to the bow. Inside the

cockpit there is a full length patterned fibreglass floor liner that extends up the sides to just under the gunnel, new

style bucket seats and revised upholstery design, a modular dash panel which accommodates large scale electronics and a rear underfloor storage tank.

For those boaters who demand a few options to customise their Explorer, there is a Stainless Steel Targa Rocket Launcher with Bimini and Clears or why not consider the All New design folding Stainless Steel Targa, an absolute work of art. Customers can also now select an optional lockable Perspex sliding cabin door to make your boat secure.

Family boating has never been better with the range of Cruise Craft Explorers. Now the boaters have an even bigger selection of models with the release of the All New mid range Explorer 595.
